

Candidate supervisor's information summary form

Agata Cieszewska, PhD in Earth Sciences, Habilitation in Architecture and Urban Planning	
Discipline/ disciplines of science	Environmental engineering / Architecture and urban planning
Professional development (degrees and titles) in chronological order	MSc (1991), PhD in Earth Sciences (2002), Postdoctoral degree in Architecture and Town Planning (2020)
Most important publications/patens over the last 3 years (maximum 10)	<ol style="list-style-type: none"> 1. Cieszewska A., Wasilewski M., Giedych R., Waldykowski P., 2018, Priority landscapes in Brudzeń Landscape Park conservation plan [w:] Annals of Warsaw University of Life Sciences – SGGW Land Reclamation No 50 (4), s. 339–352, 2. Cieszewska A., Szulczewska B. 2015. Warsaw - Challenges for Urban Agriculture [in:] Lohrberg F., Lička L., Timpe A., (red.) Urban Agriculture Europe, Jovis Verlag GmbH. s. 71-77, 3. Timpe A., Cieszewska A., Supuka J., Tóth A., 2015. Urban Agriculture Goes Green Infrastructure [in:] Lohrberg F., Lička L., Timpe A.,(ed.) Urban Agriculture Europe, Jovis Verlag GmbH. s. 126-137, 4. Cieszewska A., Adamczyk J., 2014, Problems of mapping provisioning and recreation ecosystem services in metropolitan areas, [w:] Ekonomia i Środowisko nr 4 (51) 2014, s.161-172, 5. Cieszewska A., Drexler D., Kalincsák P, Belova O., Prochazka J., 2010, Eastern Region [in:] Pröbstl U., Wirth, V., Elands, B.H.M., Bell, S., Management of Recreation and Nature Base Tourism in European Forest, (ed.), Springer, s. 115-141, 6. Bell S., Cieszewska A., Castro J., 2009, Strategic Planning of Forest Recreation and Nature Tourism [in:] Bell S., Simpson M., Tyrvaainen L., Sjevanen T., Pröbstl U., European Forest Recreation and Tourism, (ed.) Taylor & Francis, Inc. s. 151-176,
Experience in work with doctoral students (defended doctoral dissertations, doctoral programmes opened) in chronological order	2021- currently conducting an implementation doctoral thesis "Methodology of environmental assessment of tourist absorption with the use of modern technologies as an instrument for the implementation of the conservation plan on the example of the Karkonosze National Park."
Project/grants achievements (from the last 10 years)	<ol style="list-style-type: none"> 1. CoAdapt –Communities for Climate Change Action, NOR/IdeaLab/Co-Adapt/0002/2020-00 Norway Grant 2020-2024, leader of the consortium https://coadapt.pl/ 2. Assessment of the condition and importance of green infrastructure as a natural and social resource of small and medium-sized cities in Poland, 2020-2023, Grant NCN Opus-18 3. Strategy for the development of bicycle tourism products in the Mazowieckie Voivodeship, 2014 -2015, Grant of the Ministry of Tourism - a project implemented in cooperation with MROT (Mazowiecka Regional Tourist Organization) [2014.0097 / 0118 / U / DOT / DT], (report available: http: // www.mrot.pl/projekty/strategia-rozarań-produktow-turystyka-rowerowej-w-województwo-mazowieckiego),

	<ol style="list-style-type: none"> 4. Greenbelts and related planning instruments - the challenge to protect suburban landscape, 2014, Grant Fulbright Senior Research Award, realization: University of Texas in Austin 01-04 / 2014, 5. Spatial and functional models of green rings in shaping metropolitan areas, 2011-2013, NCN own grant N 305 175240 contract number 1752 / B / P01 / 2011/40, 6. The concept of the development of tourism infrastructure on the example of the Promotional Forest Complex Lasy Warszawskie, 2010-2011, Grant commissioned by the Ministry of the Environment, financing from the National Fund for Environmental Protection and Water Management, Agreement No .: 586/10 / WN50 / NE-PE-PX / D,
<p>Topic – research problem – for which the candidate supervisor seeks a doctoral student</p>	<ul style="list-style-type: none"> • comprehensive natural conditions in spatial planning, • structure-function-changes of the environment (including green infrastructure, ecosystem services, natural linkages) from local to regional scale, • adaptation to climate change from the scale of neighborhoods to the scale of the city and region, • metropolitan areas: structure - functioning - transformation - including the green belts concept, and the urban natural system, • the development of the tourist and recreational functions in naturally valuable areas, • the European Green Deal and its role in the environmental management
