

INTERNATIONAL ONLINE MEETING ABOUT GENDER EQUALITY IN SCIENCES

Join us to connect with
students around the
world

WHY?

 In France in 2018, only **22%** of engineers are women.

Source : www.femmes-ingenieures.org

 Worldwide, women also represent only **29%** of researchers (2016).

This number vary from regions to regions.

Source : [Unesco, Les femmes et la science](#)

So, let's talk about how to change that!

WHAT?

We are holding an **online meeting** about gender equality in sciences!

Share your experiences and ideas

Learn from each other

Connect with students from other countries

The discussion will be in English

WHEN?

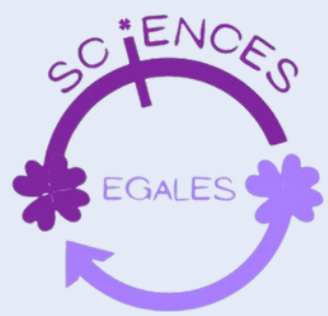

The meeting will be held in the **end of January, 2024.**

Every student is welcomed to participate. No requirements needed! Just come if you are interested in this matter.

We will let you know the exact date in the first half of December.

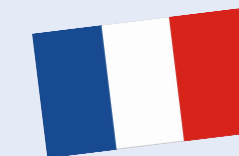

WHO?

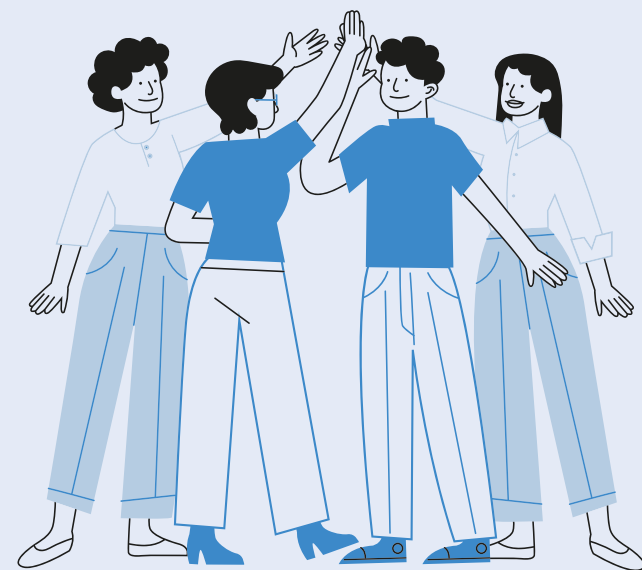

We are students from the University of Technology of Compiègne (France).

Our association, "Sciences égales", promote gender equality in sciences in schools.

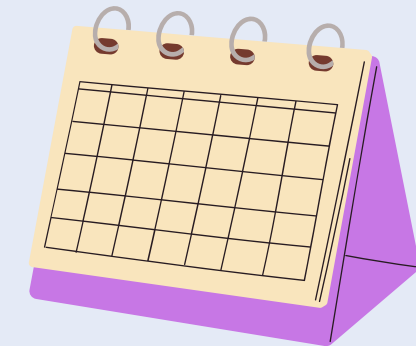

INTERESTED?

Just fill out this form :

<https://forms.gle/gTPBsD236H7Kbb2XA>

*Note : any pre-inscription doesn't force you to participate.
We are first trying to know who would be interested.*

If you have any question, you can contact us by mail:
