

Candidate supervisor's information summary form

Name and surname, degree, title: Marek Kalenik, Ph.D., D.Sc., Eng.	
Discipline/ disciplines of science	<ol style="list-style-type: none"> 1. Environmental engineering, mining and energy 2. Civil engineering and transport
Professional development (degrees and titles) in chronological order	<p>1995 - master of science in environmental engineering; Faculty of Land Reclamation and Environmental Engineering; Warsaw University of Life Sciences</p> <p>1999 - doctor of agricultural sciences in the discipline of environmental management; Faculty of Land Reclamation and Environmental Engineering; Warsaw University of Life Sciences</p> <p>2018 - habilitated doctor in the field of technical sciences in the discipline of environmental engineering; specialization: hydraulics, water supply and sewage systems; Faculty of Civil and Environmental Engineering; Bialystok University of Technology</p>
Most important publications/patens over the last 3 years (maximum 10)	<ol style="list-style-type: none"> 1. Kalenik M., Chalecki M.: Investigations on the effectiveness of wastewater purification in medium sand with assisting opoka rock layer. Environment Protection Engineering 2021, Vol. 47, No. 1, 53-65; DOI: 10.37190/epe210105 2. Kalenik M., Morawski D.: Tubular aerator with filling. Patent number/law: Pat.235924. Application number: P.413870. Application date: 08.09.2015. Registration date: 25.06.2020. Patent publication: [WUP 16.11.2020] 3. Kalenik M., Chalecki M., Wichowski P.: Real Values of Local Resistance Coefficients during Water Flow through Welded Polypropylene T-Junctions. Water 2020, 12(3), 895-910; doi: https://doi.org/10.3390/w12030895 4. Kalenik M., Chalecki M.: Model Investigations of Flow Rate and Efficiency of Air Lift Pump with PM 50 Mixer and Circumferential Mixer. Rocznik Ochrona Środowiska 2020, vol. 22, 456-474. 5. Kalenik M.: Real values of local resistance coefficient during flow of water through welded polypropylene elbows. Ochrona Środowiska 2019, Vol. 41, No. 1, 23-30. 6. Wichowski P., Siwiec T., Kalenik M.: Effect of the Concentration of Sand in a Mixture of Water and Sand Flowing through PP and PVC Elbows on the Minor Head Loss Coefficient. Water 2019, 11(4), 828-845; doi: https://doi.org/10.3390/w11040828.

	<p>7. Kalenik M.: Study of effectiveness of sewage treatment in medium sand with a supportive small coal layer. Acta Scientiarum Polonorum-Formatio Circumiectus 2019, 18(3), 57-70.</p> <p>8. Kalenik M., Chalecki M.: Investigations on the effectiveness of wastewater purification in medium sand with assisting clinoptilolite layer. Environment Protection Engineering 2019, Vol. 45, No. 2, 117-126.</p> <p>9. Kalenik M., Chalecki M.: Experimental Study of Air Lift Pump Delivery Rate. Rocznik Ochrona Środowiska 2018, Vol. 20, 221-240.</p>
Experience in work with doctoral students (defended doctoral dissertations, doctoral programmes opened) in chronological order	
Project/grants achievements (from the last 10 years)	<p>Wichowski P.P., Siwiec T., Kalenik M., Stańko A.G.: Investigation of the influence of pipe abrasion on hydraulic conditions of sewage flow in pressure pipelines. Project no: N N523422637. Completion date: 14.10. 2009 -13.01. 2012. Warsaw University of Life Sciences. Grant of the Ministry of Science and Higher Education. The project is financed by the Ministry of Science and Higher Education. I was the main contractor for the project. My percentage share is 25%.</p>
Topic – research problem – for which the candidate supervisor seeks a doctoral student	<p>1. Investigation of hydraulic working conditions of airlifts used in rapid filters with a self-regenerating bed.</p> <p>2. Investigation of the influence of the addition of sludge from washing the rapid filters on chemical and strength properties of concrete.</p>
